PROFESSIONAL SUMMARY

Full Stack Software Engineer with 3+ years building enterprise multi-tenant SaaS analytics platforms using **ASP.NET Core Web API**, **C#**, **Angular 18+**, and **Microsoft SQL Server**. Delivered a **3x API performance improvement** via advanced T-SQL and Stored Procedure optimization. Independently designed and shipped a production-grade AI-powered chatbot with tool-calling and **JWT Authentication**. Proficient in **Clean Architecture**, **SOLID Principles**, **Entity Framework**, and **CI/CD** via Azure DevOps.

EXPERIENCE

Software Engineer Analyst

Sogolytics

Oct 2024 – Present

Mumbai, India (Hybrid)

- Led end-to-end feature delivery within a **5-person engineering team** on the **Reports Module**, owning development through QA handoff across quarterly release cycles
- Engineered 5+ data visualization widgets (Cross Tab, Trend, Rating, Open-End) using **Angular 18+**, **ASP.NET Core Web API**, and **LINQ**, serving enterprise clients in healthcare and financial services
- Independently architected and shipped a production **AI-powered chatbot** with tool-calling and **JWT Authentication**, enabling natural language commands mapped to live **REST API** dashboard operations
- Achieved **3x reduction in API response time** on Cross Tab module via **T-SQL query restructuring**, **Indexing**, and **Stored Procedure** refactoring, improving performance across all enterprise client tenants
- Designed data segmentation APIs and multi-level **Excel export pipelines** applying **Clean Architecture** and **SOLID Principles**; modernized **VB.NET** and **.NET Framework** legacy codebases with zero-regression compatibility
- Owned **CI/CD pipelines**, sprint code reviews, and production deployments on **Azure DevOps**, standardizing release gates and reducing post-deployment defects

Trainee Technical Analyst (Full Stack Engineer)

Sogolytics

Jun 2023 – Oct 2024

Mumbai, India (On-site)

- Built scalable **REST APIs** using **ASP.NET Core**, **Entity Framework**, and **Repository Pattern** for survey reporting and analytics modules serving multi-tenant enterprise clients
- Developed reusable **Angular** components with **Reactive Forms** and **RxJS**; authored and tuned complex **T-SQL** queries and **Stored Procedures** for multi-dimensional data aggregation
- Contributed to **sprint planning** by estimating workload capacity and communicating cross-team dependencies to ensure consistency across modules; maintained on-time feature delivery across quarterly release cycles
- Promoted to Software Engineer Analyst in 15 months** based on sustained delivery performance and technical ownership

Software Intern

Autometa Corporation

Sep 2022 – May 2023

Mumbai, India

- Built a **Python-based NLP** document summarization system with automated PDF/DOC/TXT extraction pipeline and a responsive **HTML5/CSS3/JavaScript** frontend for document upload and summary rendering

TECHNICAL SKILLS

Backend: ASP.NET Core Web API, C#, .NET Framework, Entity Framework, LINQ, JWT Authentication, REST APIs, VB.NET

Frontend: Angular 18+, TypeScript, RxJS, Reactive Forms, HTML5, CSS3/SCSS, JavaScript

Database: Microsoft SQL Server, T-SQL, Stored Procedures, Query Optimization, Indexing

DevOps & Tools: Azure DevOps, CI/CD Pipelines, Git, Postman, Visual Studio, VS Code

Architecture & Practices: Clean Architecture, SOLID Principles, Repository Pattern, REST API Design, Agile/Scrum

PROJECTS

Face Recognition Attendance System | Python, OpenCV, NumPy, Tkinter, PIL, SQL | GitHub

- Built a desktop application using **OpenCV** and **Haar Cascade** for real-time face detection and recognition to automate student attendance tracking across university departments
- Designed a **Tkinter** GUI for student registration, face model training, and attendance reporting; stored and queried attendance records using **SQL**

EDUCATION & CERTIFICATIONS

M.H. Saboo Siddik College of Engineering

B.E. Electronics & Telecommunication | **CGPA: 9.32/10**

Mumbai, India

Aug 2019 – Mar 2023

Internship Completion Certificate – Autometa Corporation (Apr 2023) | Hackathon ERR_404 5.0 – Programmers Club (Feb 2023)
